COLDS

Taking cold is the cause of more numerous diseases than any other single known cause. One-half of the population of this country is afflicted with colds. The more common diseases due to taking cold are: colds, influenza, bronchitis, asthma, quinsy, sore throat, croup, pleurisy, rheumatism, erysipelas and neuritis. A cold may have any of these when the use of "Seventy-seven" at the first chill or shiver will break up the cold in its incipient stage. Two Worth Properties That Afford Unusual Opportunities For Investment

Your local broker knows all about the standing of the men at the head of these companies and he will tell you that he regards the personnel of the management as a strong recommendation for both the

Inspiration Needles Copper Company

.... and the

Miami Consolidated Mines Company

HERE ARE THE MEN

John S. Cook Globe banker and financier, who as secretary-treasurer of the Goldfield Consolidated paid the stockholders more than \$30,000,000, is secretary-treasurer of Inspiration Needles and is president of Miami Consolidated.

Maj. J. H. Dockweiler noted engineer at San Francisco, and one of the best known mining engineers in the country, formerly city engineer of San Francisco, is consulting engineer for both companies.

H. V. Snell superintendent and general manager of the Black Warrior Copper company, which is shipping 250 tons of high grade ore daily, and a man who has made a complete success in mining and finance in the Globe-Miami district, a graduate of the Michigan School of Mines and a practical miner, has been elected general manager of the Miami Consolidated.

E. R. Rice for four years efficiency engineer of the Copper Queen mine, a graduate of the Michigan School of Mines, a member of the Am. Inst. of M. E., the man who had charge of drilling operations on the Miami Southwestern and, consequently, has thorough knowledge of local conditions, has taken charge of operations at Inspiration Needles.

Facts About the Property

ground with the least possible delay. Although drilling operations will be conducted under the supervision of two men, Mr. Snell and Mr. Rice will co-operate in their efforts to get a maximum amount of work accomplished in a minimum time.

INSPIRATION NEEDLES owns approximately 740 acres of highly mineralized ground in the heart of the Miami Copper Belt.

MIAMI CONSOLIDATED owns approximately 1200 acres of highly mineralized ground in the heart of the Miami Copper Belt.

BOTH PROPERTIES adjoin the Live Oak mines, richest ground of the Inspiration Consolidated Copper company's holdings, and the Miami Southwestern. Both properties are regarded by conservative mining men as being most likely to become important porphyry copper producers.

We believe that in Miami Consolidated the opportunity is afforded investors for an approximate duplication of the profits made by those who purchased Inspiration Needles. We strongly recommend the purchase of Inspiration Needles at the market price because of its market possibilities.

The management of both the Inspiration Needles, which has risen as high as \$1.65 since listing on the New York and Boston curb markets, and the Miami Consolidated, which is being offered at 50 cents the share prior to listing on the curb market, are working in conjunction with each other in order to develop their attachment and abuse that Christ condemns. It is the condemning of Christ's poor, the vain boasting, and the absence of virtues, traces that follow in the wake of our modern Crosses.

Never lose sight of the noble destiny of your creation in the world enjoyment that this world offers. The long life is but an instant compared with eternity and why forfeit the possession of beatitude with Christ for the misuse of transient pleasures and attainments.
